## TRANSFORMING THE HEALTHCARE INDUSTRY

We understand that there is an increased pressure to deliver more services to more people at reduced costs. As a healthcare provider, there are operational pressures due to skill shortages, increases in procedural costs, and your patients screaming for you to ensure that certain functions are automated and electronic.

With these issues in mind, we developed Healthcare by Braintree – a comprehensive, powerful healthcare solution that manages your patients, providers, medical records, patient schedules, medical supplies, financials, communication, and much more.

Gain real-time insight into funding and expenditure across multiple business units, tighten billing cycles, and collect more payments.

Instantly and securely store and transmit medical data - like X-rays - between providers and/or patients to facilitate evaluation, diagnosis and care management, in real time.

Patients can receive holistic, personalised, and transformative care both in and out of the hospital setting. Caregivers can access key data from anywhere, at any time.

## Why We Healthcare by Braintree

APPOINTMENT  
SCHEDULING

REGULATORY  
COMPLIANCE

INVENTORY  
TRACKING

Send secure alerts, messages and reminders to patients via text, email or phone. Manage appointment worklists and perform operations like confirm, check-in, check-out, no-show and appointment cancellations.

Achieve and maintain regulatory compliance, ensure certifications and license maintenance, implement practices, regulations and procedures, and ensure the security of personal health information.

Control the entire supply chain from procurement to distribution of hospital supplies, standardise ordering processes, and receive alerts when supplies are low and orders need to be approved.
