Unlocking Business Potential: Azure Cloud Adoption Framework

Embrace innovation, efficiency and growth by harnessing the power of the Azure Cloud Adoption Framework. Elevate your business through:

Business Case

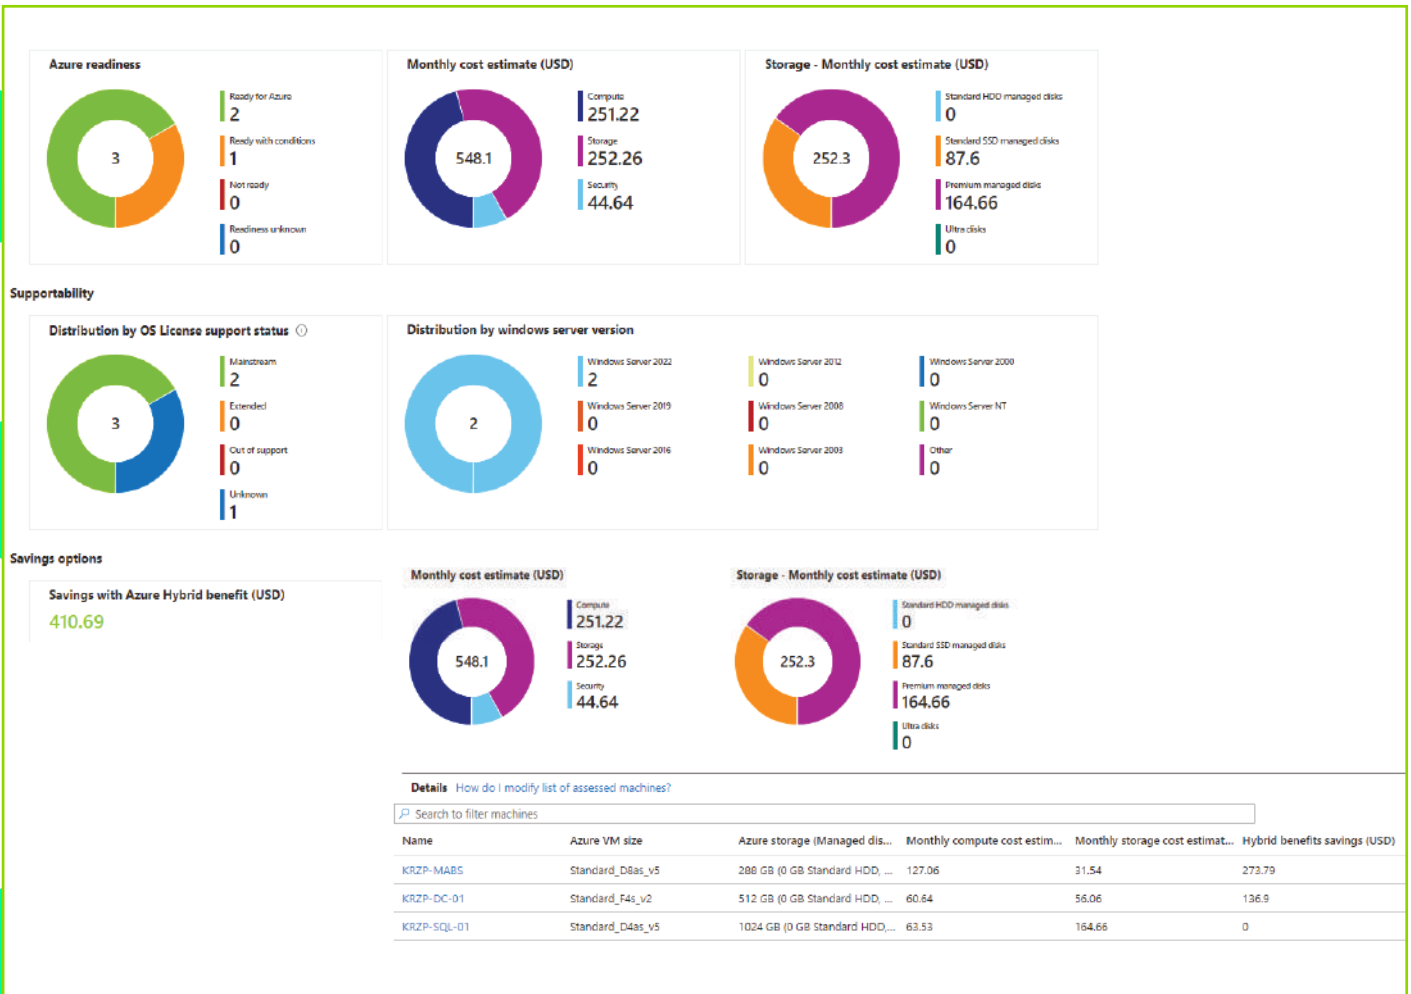

Total cost of ownership	On-premises (USD)	Azure (USD)	Savings (USD)	Insights
Compute and licensing	47.74K	18K	29.74K	<ul style="list-style-type: none"> 29.74K USD saved by applying Azure Hybrid Benefits and using optimized savings options in Azure
Storage	3.05K	2.47K	583.84	
Network	5.16K	1.02K	4.13K	<ul style="list-style-type: none"> 4.13K USD saved by network optimizations in Azure
Security	3K	1.61K	1.39K	<ul style="list-style-type: none"> 1.39K USD saved by unifying security management with Microsoft Defender for cloud Mitigate threats 50% faster and improve your security posture with Microsoft Defender for cloud. Learn more
IT Labor	350.4K	256.96K	93.44K	<ul style="list-style-type: none"> 93.44K USD saved by improving IT productivity
Facilities	0	0	0	<ul style="list-style-type: none"> Please update the on-premises facilities cost in on-premises settings to realise savings for this component
Total	409.35K	280.06K	129.29K	
	Savings 31.6%		Migrating to Azure could be 1.46 times more cost efficient than on-premises	

Optimise, Transform, Succeed: Infrastructure Assessments with Azure

Align your infrastructure with business goals through comprehensive assessments. Identify opportunities to enhance performance, reduce costs and ensure your IT strategy is in sync with your overall objectives.

Infrastructure Assessment

Microsoft Azure Secure Score

The Microsoft Secure Score looks at multiple items within the Microsoft 365 and Azure environments. The score is based on the type of services being used in Microsoft 365 and compares them to a baseline established by Microsoft. The score shows in what level you are aligned with the best security practices.

Security Assessment

The retrieved Microsoft Secure Score is as follows:

MICROSOFT SECURE SCORE
 Tenant Name: **expanded.onmicrosoft.com**
Secure Score: 74.37%
 530.28/713 points achieved
 Microsoft Secure Score analyzes the protection state of your identities, data, devices, apps and infrastructure

Identity	78.85%
Protection state of your Azure AD accounts and roles	
Devices	71.17%
Protection state of your devices	
Apps	92.65%
Protection state of your email and cloud apps	

Microsoft and Azure Secure Score
 The retrieved Microsoft Secure Score is as follows:

AZURE SECURE SCORE
 Tenant Name: **expanded.onmicrosoft.com**
79% (~44 of 56 points)

Assessment score

The overall assessment score is calculated based on the self-service assessment data collected in the assessment. The company score is shown below.

- The score can be broken down into five topics. These topics are:
- Applications** are the programs installed on your machines
 - Data** are for example e-mails and documents that are saved within the company
 - Endpoints** are for example the laptops, mobile phones and servers
 - Identities** are accounts that either people or workloads are using
 - Infrastructure** are all the services necessary to operate and manage IT services

The score for the individual topics from the self-service assessment are shown below

Urgent actions

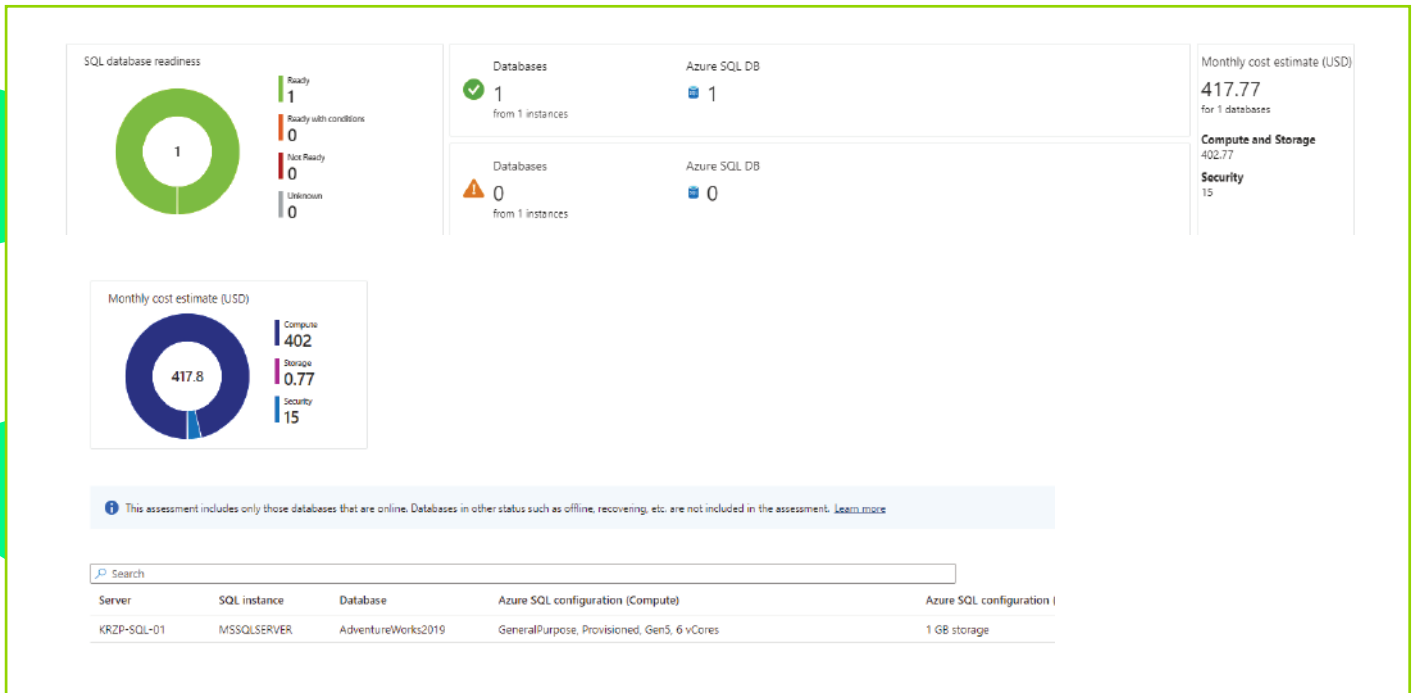

The following urgent action items apply to enhance your position.

Urgent	
Topic	Advice
1. Applications	Implement a process to check if the used software is supported and how long the support period is.
1. Applications	See if there are currently tools available or if there are licences that can help you to block unauthorized/unwanted software. If there is no solution available in the current licences select a product that can help with this.
2. Data	Determine the regulatory requirements your company need to comply with. Implement a basic data management policy.
3. Endpoints	Start a project to apply a baseline to the company devices. Implement a process that the secure baseline should apply to all devices.
3. Endpoints	Determine if the host-based firewall are enabled and used on the company end-user devices.
4. Identities	Implement a process that administrative permissions are only assigned to dedicated administrator accounts.
5. Infrastructure	Define and implement a policy on the use of e-mail clients and browsers. Gain insights in the usage.

Revolutionise Your Data Strategy: Database Assessments with Azure

Leverage advanced Azure database technologies. Assessments guide the integration of innovative features, enabling your organisation to stay at the forefront of data management capabilities.
